Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Arguments

Applicant's arguments with respect to claims 16-17, and 23-26 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 16-17 and 23-26 are rejected under 35 U.S.C. 103(a) as being unpatentable over either one of Gade, Fife or Cool et al in view of Jeffress et al further in view of Howell. The above claims are readable on the patent to either one of Gade, Fife or Cool et al with the exceptions of having a) a faucet plumbing fixture with a water way having a support structure for

easily mounting and removing a decorative element or spout and b) a shower head fixture with a water way having a support structure for easily mounting and removing a decorative element or shower head. The patent to Jeffress et al teaches exception a) and the patent to Howell teaches exception b). In view of the teaching of Jeffress et al and Howell, it would be obvious to one of ordinary skill in the art, at the time the invention was made to modify the faucet fixture (52, 64 and 66-68) and shower fixture 31-32) of Gade, faucet fixture (3, 5, 7 and 8a) and shower fixture (26 and 29-30) of Fife or faucet fixture (40 and 42-44) and shower fixture (12 and 14) of Cool et al with the faucet fixture and support (31-32, 36, 38, 42, 44, 50, 52, 54 and 56) of Jeffress et al and with the shower fixture and support (32, 34, 38, 44 and 50) of Howell, if desired. The seal in Howell is a matter of obvious design choice in view of the plastic or PVC material of the waterway 16 and 26. This teaching provides for changing separate water control plumbing fixtures, each having different water control functions and each having a common decorative theme or escutcheon. Also, these fixtures can be removed without affecting the water supply connections. Such modifications provide no unobvious or unexpected results.

Conclusion
